Educational Research From a Junior Researcher's Perspective (2)

- The pandemic has profoundly impacted the ways of how we do research
 - Impossible to perform in-person data collection
 - How to reassure validity and reliability of research design and results
 - Prolonged period of collecting data

However, Every
Cloud Has a
Silver Lining

- Future research topics on
 - The emotional and psychological challenges students, especially international students are facing under global health/political/social crisis
 - Large-scale and longitudinal studies on the flow of faculty and student mobility
 - Student and family perception on international study and their choice on study destination
 - Institutional emergency response to under global health/political/social crisis
 - Institutional strategy change on future student recruitment
 - Educational research using new technologies, and the methodologies challenges and innovations

Thank you!
